Kathy

Here's the slide show. Please do correct names.

For both the report and the February meeting summary (Feb, right), we have approvals of all but Barry and Laureen. Can one of you reach out to Laureen and then you'll have to reach out to Barry anyone to certify. Toby owes me the April notes by early next week which I will in turn send around for review by you then the Subcommittee.

Jake, can you check in with NACEPT to see when they need the final report? I sent it off to CSRA to get cracking, but also didn't hear back so I'll Jennifer to confirm they are charging ahead.

anuary summary to post also.

Jake I'll need the co-chair certification for the meeting summaries and do we need Barry to certify the final report too?

I'd like to get the web page up to date soon. Preferably before things are transmitted to the Administrator.
